Bag filter material	
Bagfilter material	Specification
1	Code: TFM04—5(B) coating
2	Weight: 800g/m ²
3	Thickness: 1.8-2.0mm
4	Air permeability: $\leq 60 \text{ dm}^3/\text{m}^2/\text{s}$
5	Warp tensile force: 1400N/5×20cm
6	Weft tensile force: 1600N/5×20cm
7	Working temperature: 200-250°C, Max temperature 280°C
8	Wind speed: 1.0—1.2m/min
9	Material: Glass fiber base cloth/P84+ glass fiber
10	Treatment: PTFE treatment, coating
11	Service life: 2 years
12	Application: coal fired boiler

TFM04-5(B) P84/PTFE+Fiber Glass Coating
